

Board Members Help Build CCSC's Future

Dear CCSC Friend,

Once you have a firm foundation, you can build up and out. This is true for individuals, one's spiritual life, organizations, communities and any entity desiring growth.

CCSC desires growth and made the decision almost five years ago—after we flooded the first time—to thoughtfully consider where we wanted to be for the next 25 years. We considered our location, and we considered how the mission could deliver services in 5, 10, and 25+ years.

Much work has occurred during these last five years to lay the foundation (metaphorically and physically), for how the programs could amplify in a larger space, and then to communicate this information to all those who believe in our mission.

This work continues each day, and 2020 is the year we are seeing tangible results: a building that is growing vertically and programs poised for horizontal and vertical growth!

The following individuals have helped to lead the organization to this point by serving on the CCSC Board during the time period of 2015-2019. If you know them, please thank them on CCSC's behalf.

Highlights

Construction Update

Construction of the new J. Dean Robinson building has gone vertical! Drive past and take a look at the skeletal columns, beams and decking to get an idea of what's to come.

Projections for the beam-signing event, where all will have the opportunity to grab a Sharpie and write a prayer or blessing on a beam, are now late March. More information on the beam signing will be shared as we get closer to that point in construction.

Campaign Update

CCSC's first Capital Campaign in 25 years seemed like a huge undertaking, but we had faith in our supporters.

That faith has been borne out as contributions have been steady and continue to help CCSC make the vertical climb to the Capital Campaign's \$14 million goal.

Thank you for your contribution. Every gift is critically important as we begin the countdown to the opening of the new J. Dean Robinson Building.

CCSC needs to raise \$2.5 million to finalize its Capital Campaign and realize your dream and ours to *serve more and serve better*.

For information about encouraging others to give and/or making an additional gift to help complete the campaign, please contact development director Sharon Current at scurrent@ccschouston.org
